Summary

I am a Front End Developer with 4 years of experience in creating engaging and intuitive web experiences using React.js. I have a proven track record of delivering custom web page designs that are visually appealing and user-friendly. I have a strong understanding of HTML5, CSS, and JavaScript, and I am confident in tackling challenging projects. I am a collaborative team player who works well in Agile
software development environments and strives to deliver high-quality results.

• Developing and implementing new features and functionalities for the web applications using React.js, HTML, CSS, JavaScript, jQuery and other front-end technologies.
• Maintaining and improving the existing code base, fixing bugs, enhancing performance and ensuring compatibility across different browsers and devices.
• Refactoring code from old projects to a new React project, using modern tools and frameworks such as React Hooks, Redux, TypeScript.
• Participating in all stages of software development, from planning and designing to testing and deploying.
• Communicating and collaborating with the team members, including backend developers, business analysts, quality assurance engineers, product owners and stakeholders, using tools such as Slack, Jira and Git Hub.

Experience

Front end Developer
Hamilton Capital Holding
May 2022 - May 2023 (1 year 1 month)
My key responsibility as a Front end developer was to collaborated with cross-functional teams, including designers, back-end developers, and product managers, to ensure effective communication and successful project delivery.

• Developed and maintained the front-end components of the Himalaya Exchange platform, ensuring a seamless and visually appealing user experience.

• Collaborated closely with UX/UI designers to translate wireframes and mockups into interactive and engaging web pages.

• Demonstrated strong problem-solving skills and attention to detail, resolving front-end-related challenges and continuously improving the platform's usability and functionality.

Web Developer
Skyelint Technologies
Oct 2019 - Feb 2022 (2 years 5 months)
During my time at Skyelint Technologies, I had the opportunity to work on various projects and took ownership of frontend development. However, I also had the opportunity to occasionally work on

backend tasks, which provided me with a well-rounded skill set and a broader perspective in delivering end-to-end solutions. Here are some highlights of my experiences:

Ekai Retail and Inventory:
• Ekai Retail and Inventory is a project that helps industries manage their
products and inventory.
• It records transactions such as sales, purchases, income and expenses, and
provides analytics and reports for better business overview.

Burfee Restaurant Management System:
• Burfee Restaurant Management System is a Project created for restaurant with a point of sale and various modules to manage recipe, purchase, reports, etc.

Static Website Development:
• Sofuto Baby Care: https://www.sofutobabycare.com/
• Azure Homes and Consultants: https://azurehomesandconsultants-66f70.web.app/

Education

St Blaise High School
Secondary School Certificate

St. Xaviers Junior College
Higher Secondary Certificate
2014 - 2016

Valia College of Arts, Commerce and Science
Bachelor of Science, Information Technology
2016 - 2019

Licenses & Certifications

The Next.js 13 Bootcamp - The Complete Developer Guide - Udemy

React with Test Driven Development - Udemy

Skills

React.js • Redux.js • TypeScript • Tailwind CSS • Cascading Style Sheets (CSS) • JavaScript • Jest • Git • HTML5 • Node.js
